

Crusher Spider Bushing Lubricant

Features & Benefits

- High viscosity fluid designed to lubricate heavily loaded crusher spider bushings, extending component life while reducing consumption.
- Solid and organo-metallic anti-wear and extreme pressure additives provide unparalleled protection in the most heavily loaded zones.
- Lubricant is recommended for use in all temperature conditions, both summer and winter.
- Environmentally friendly. Does not contain chlorinated solvents or lead and is free of all known carcinogens.

Proven Performance

- Petron's Crusher Spider Bushing Lubricant has been used exclusively on a new Tenova TAKRAF 60"x89" gyratory crusher for four years. The original spider bushing is still in use today.
